**Royal Horticultural Society : Arches and Pergolas (RHS Practicals)** before purchasing it in order to gage whether or not it would be worth my time, and all praised Arches and Pergolas (RHS Practicals):

Pergola built with information from this bookBy PrairieskyfarmI built my own rustic pergola by my house with information gleaned from this very informative book.Good pictures detailed drawings on construction of simple pergolas gave me enough information to build our pergola using huge cedar logs harvested from our own farm. Knotched 2x6's formed the rafters. Will use it again this summer to build an arch over a swing foot bridge.Lots of information as to what to plant around the post of your pergola arches.

This work contains full-colour images with step-by-step instructions, which provide concise practical information and advice. It is perfect for the beginner or busy gardener who wants to get results.
