**Jin Feng, Jiang Lu : Basic CAD for Interior Designers: AutoCAD, Architectural Desktop, and VIZ Render 2007** before purchasing it in order to gage whether or not it would be worth my time, and all praised Basic CAD for Interior Designers: AutoCAD, Architectural Desktop, and VIZ Render 2007:

0 of 0 people found the following review helpful. I think this is the best one for youBy jin fengI wrote this book, and I could not find my own copy. So, I bought one. If you are still using ACAD 2007 for interior design work, I think this is the best one for you.0 of 0 people found the following review helpful. Very Helpful BookBy A. CobyGreat book to learn the basics of CAD for Interior Designers. Very helpful book for my particular needs.

This richly illustrated book arms interior design students with solid, practical know-how step-by-step AutoCAD instruction. It is organized around a series of tasks combines explanations of AutoCAD commands with practical systematic drafting procedures.

From the Back Cover Basic AutoCAD(R) for Interior Designers Using AutoCAD(R) 2002 is an introductory text on the use of AutoCAD(R) for both 2D drawings and 3D modeling in the field of Interior Design. It provides a compilation of project/task-driven tutorials that give interior design students solid, practical know-how and provide numerous examples that follow current professional drafting conventions and standards. This approach combines explanations of commands with practical and systematic drafting procedures, allowing students to focus on what an interior designer can do with AutoCAD(R). Features of this text include: Easy-to-understand tutorials with step-by-step instructions Numerous illustrations and screen captures A listing of the command prompt output (what AutoCAD says) and input (what the user replies) for each AutoCAD command A description and/or explanation of both AutoCAD's and the user's actions for each AutoCAD command Chapter summaries highlighting the main points and commands of each chapter About the Author Jin Feng is an Associate Professor of interior architecture at Lawrence Technological University. He has been teaching computer-aided-design courses at different levels for interior design students since 1993. Before joining the faculty of Lawrence Technological University in 2006, he taught at Iowa State University, Purdue University, Indiana University, Eastern Michigan University, and Tsinghua University. He is the author of Basic AutoCAD for Interior Designers Using Release 14 and Basic AutoCAD for Interior Designers Using AutoCAD 2002. Jiang Lu is an Assistant Professor of interior design at Eastern Michigan University. She has been teaching advanced computer-aided-design courses. Before she joined Eastern Michigan University in 2003, Jiang Lu had 6 years full time and part time teaching experience at Purdue University, Eastern Michigan University, and Tsinghua University. Jiang Lu was trained as an architect and has practiced for 14 years in architectural design and interior design firms. She also works as an architectural illustrator and architectural graphics specialist. Jiang Lu is a Ph.D. candidate at Indiana University.
