It also shows you that you have a Birthflowers of the Landscape flower which will magically bloom on your birthday every year. This author has been interviewed for the AE Open Book Show and it is gaining national recognition in major publications such as Better

Homes and Gardens, BottomLine, etc. A must for all gardeners and for those who love flowers. 3 of 3 people found the following review helpful. Most original book I have seen in years! By A Customer I loved this book! The idea is very original, and the photos are beautiful. As a gardener, I have been trying for years to get color in my yard all year, and this book was just what I needed. The idea of the Mystique surrounding the birthflowers is great too. I'd have to give it an A+, definitely five stars! 1 of 1 people found the following review helpful. Fun, Informative, Easy Reading- Gardening By A Customer This book is not only for garden enthusiasts, it's for the novice as well. Makes the chore of creating color all year round in your garden fun! Also a bonus of your personality traits and history of your own birthflower. I'm born in September and my birthflower is Canna, What's yours? Read it! You'll enjoy it!
