From Creative Publishing international : Black Decker The Complete Guide to Decks, Updated 5th Edition: Plan Build Your Dream Deck Includes Complete Deck Plans by Editors of CPi (Jan 1 2012) before purchasing it in order to gage whether or not it would be worth my time, and all praised Black Decker The Complete Guide to Decks, Updated 5th Edition: Plan Build Your Dream Deck Includes Complete Deck Plans by Editors of CPi (Jan 1 2012):

2 of 2 people found the following review helpful. Excellent DIY Guidebook for DecksBy WombatExcellent general reference guide to building a deck. Considerable improvement over my dated diy deck books. Reviewed numerous deck books and selected the Black Decker as the most clear and comprehensive. Highly recommended.0 of 0 people found the following review helpful. Five StarsBy VICTOR ROJASexactly and perfect11 of 12 people found the following review helpful. Useful bookBy toolmanRead it from front to back. I'm going to build a deck this summer and wanted to learn all about it and figure out how to do it on the cheap but still be nice and have unquie features. This book helped me do all those things.I will note however that I ordered this from the vender "Why Pay More and Fast Shipping" and they gave me the 4th edition instead of the 5th...and it had rips in the covers, so watch out for them.

Will be shipped from US. Used books may not include companion materials, may have some shelf wear, may contain highlighting/notes, may not include CDs or access codes. 100% money back guarantee.
