Paul Lesniewicz : Indoor Bonsai before purchasing it in order to gage whether or not it would be worth my time, and all praised Indoor Bonsai:

0 of 0 people found the following review helpful. AwesomeBy Samantha SimaoGreat book, very helpful! I highly recommend it!0 of 0 people found the following review helpful. Good for a beginner like meBy bstorrsI tthink this is an excellentt book. Good for a beginner like me. I give it 4 stars because the information is 30 years old. it was published in 1985, not 2013. I can't see that any revisions were made since it was first published.0 of 0 people found

the following review helpful. Good book on Bonsai By J. R. Smith Appears to be a good intro book to indoor bonsai. My wife likes it. Thank you.

Discover a new and exciting horticultural art form with this practical guide to bonsai. A bonsai is a miniature tree. Grown in a shallow dish, it resembles larger trees in all respects except size, and, with the right care and attention, will live to an equally old age. Conventional bonsai need to be grown in the open air, where they are exposed to the sun, wind and rain. In this comprehensive guide, however, Paul Lesniewicz looks at those species that can be kept indoors all year round. This book will show you how to choose a plant or how to grow one from seed, and give you tips on general care, pests and diseases, shaping, wiring and pruning. With this book, you can discover a new and exciting horticultural art form.

Language Notes Text: English, German (translation) From the Back Cover In this book, Paul Lesniewicz looks at the Bonsai species which can successfully be kept indoors all year round. There are sections on choosing a plant or growing it from seed, planting, general care, pests and diseases, shaping, wiring and pruning, and many other aspects, simply explained to help the gardener to create his or her own individual living work of art. About the Author Susan Simpson is a lecturer in teacher training at North East Lincolnshire Council Adult Community Learning Service in Grimsby. She has 25 years experience of teaching in compulsory and post-16 education. Susan is a curriculum manager for education and training, ICT and Business Administration and Law. She developed, managed and taught adult education programmes in Botswana for 10 years. Susan has also presented at regional level for teacher training and nationally for ICT Skills for Life.
