Ray Nelson Faulkner, Sarah Faulkner : Inside Today's Home before purchasing it in order to gage whether or not it would be worth my time, and all praised Inside Today's Home:

0 of 0 people found the following review helpful. Four StarsBy MNiteGood update of a classic book0 of 0 people found the following review helpful. Five StarsBy Sasha Rosewell kept book1 of 1 people found the following review helpful. Great resource !By Tracy C. MealI used the text for a space planning class. It was well organized and there were tables for referencing anthropometric data quickly. I kept it on hand while drawing floor plans for easy reference.

An enriching and informative introduction to residential interior design. More than 750 illustrations of contemporary and classic design present a variety of projects, geographic areas, tastes, styles and housing forms. This text also prepares students for the interior design profession by discussing qualifications, licensing, ethics and career options. Features: * Focuses on 19th and 20th century developments in the field. * Applies elements and principles of design to interiors. * Explains how to design interior living spaces to suit the individual needs of occupants, participants and users. New to this edition: * Integrates new case studies - real-life examples of how professionals solve design problems. * Acquaints students with important historical developments in the profession. * Discusses recent environmental design issues. * Applies information on sensory perception, ordering systems and spatial illusion to a revised discussion of space. * Defines technical and mechanical functions used in interior design.

Part I: INTRODUCTION. 1. Interior Design Practice and Process. 2. Historical Overview. Part II: FOUNDATIONS OF DESIGN. 3. Design Judgment. 4. Elements: Space, Form, Line, Texture. 5. Elements: Light and Color. 6. Design
