I will look at it one more time and see if it was just me or if it really is the book being boring and uninspiringBy JazzyjenJust received this book yesterday ahead of the scheduled time originally given. Was looking so forward as I always can't wait to see how each year's book out does the last. I have acquired 5 books starting with book 15. I just viewed it and have to admit it wasn't what I had expected. Out of 508 pictures on about a half dozen were interesting. In all fairness, I will look at it one more time and see if it was just me or if it really is the book being boring and uninspiring!0 of 0 people found the following review helpful.
